Conference Overview

The 3rd International Conference on Fisheries and Animal Sciences (3rd FISAS2026) will be held as part of the Congress on Sustainable Agriculture and Food Security (COSAFS2026), which will take place from 3rd to 6th August 2026, at the Imperial Hotel Bintulu, Sarawak, Malaysia. COSAFS2026 carries the theme "Feeding the Future, Fostering Sustainable Food", reflecting Sarawak's commitment to achieving sustainable and resilient food systems in line with the Post-COVID-19 Development Strategy (PCDS) 2030.

Aligned with this vision, 3rd FISAS2026 emphasises the sustainable management of fisheries and livestock resources through advancements in genetics, breeding, nutrition, health, and welfare. It also highlights innovations in precision farming, feed technology, and environmental stewardship that contribute to resilient food systems and sustainable protein production.

Themes

- **Sustainable Fisheries and Livestock Production Systems** : Exploring innovative approaches for sustainable aquaculture, fisheries, and livestock production that enhance productivity, efficiency, and ecological balance.
- **Genetics, Breeding, and Animal Health Innovations** : Showcasing research on selective breeding, biotechnology, and disease management to improve animal health, welfare, and resource sustainability.
- **Feed, Nutrition, and Food Safety** : Highlighting advances in feed formulation, nutritional optimisation, and quality assurance to ensure safe, nutritious, and sustainable animal-based food products.
- **Smart and Climate-Resilient Food Systems** : Promoting precision technologies, digital tools, and climate-smart strategies that support adaptive and resource-efficient fisheries and livestock systems.
