## Overview

Universiti Putra Malaysia Bintulu Sarawak Campus (UPMKB) would like to extend an invitation to its **International Symposium 2023**. Randau is a term in Iban which means seminar or it may be defined as a platform to tell stories or to chat and exchange views on issues. The idea of **RANDAU** is brought through the form of scholarly discourse as education improves community well-being and gives individuals the chance at a better life through a knowledge-transfer approach. This initiative is in line with the Industrial Revolution 4.0. iRandau 2023 International Symposium provides an intellectual platform for academic and industry partners to share aspirations, ideas, and research findings.

This symposium aims to empower human capital in line with UPMKB's re-engineering plan in social studies and science technology, which focuses on progress in various fields to enhance economic development and improve quality of life. The theme for **iRandau 2023 : International Symposium 2023** is **"Sustainable Well-being: The Way Forward"**. The symposium includes studies within the areas of social sciences, economics and management, and science and technology.
