

ISPM2022

INTERNATIONAL SYMPOSIUM ON POLYMERIC MATERIALS 2022

14th-15th June 2022

SCOPES OF PRESENTATION

- Polymer composites
- Natural fibre reinforced polymer composites
- Nano-based polymer composites
- Advanced polymer processing
- Novel synthesis and polymerization methods
- Rubber based composites
- Advanced synthesis and characterization of polymers
- Rubber and latex technology
- Textile composites
- Biopolymer based packaging
- Plastics technology

All papers (extended structured abstract) will be published in ISPM2022 proceedings (3 pages).

Selected papers will be extended and published in:

- Materials Today: Proceedings (Scopus)
- Springer Proceedings in Materials
- Edited books published by international publishers
