

# Jury Review

Rafar Abdul Aziz , Siti Zakiah Mohamed, Hasanuddin Lamit & Khairina Zek Khairuddin

Foremost, we would like to congratulate all these idiosyncratic projects for their outstanding ideas and expressions of work for the sake of human and environmental benefits.

The projects imply that a landscape space can be proposed to integrate well with the path and space principles with appropriate contextual connection and linkages. More interestingly, the creation of a few urban spaces for multi-purpose usage was expressed as a dynamic and active theme of human activities.

Overall, the students have shown satisfactory intellectual design process as shown in the number of drawings. The objective in developing analytical thinking in solving the problems through proposed landscape planning in selected town area is achieved.

The next step is to carry through this commendable preliminary works into actual designs. Most have shown credible attempts to creatively and intelligently translate an idea through a process into a designed product.
