

E-co Guava Peeler

Razman Ramli & Rizal Rahman

Imagination and logical thinking during the design exercise inspired Aziera to develop improvements on existing tools and propose an innovative product design solution.

E-co Guava Peeler is a multi-tool that combines two different kitchen tools: knife and skin peeler. The common method of peeling a guava skin with a knife is replaced by this novel design idea. The cutting blade is stored inside the handle of the knife through a pivot point mechanism. The peeler also doubles up as a scoop for the rounded seed in the fruit. A touch of apple green hue to the ergonomically designed handle adds attractiveness to the design.
