

## Important Dates

Abstract Submission Deadline:

**Before 1<sup>st</sup> July 2020**

Abstract Acceptance Notification:

**Two weeks after paper submission**

Payment Deadline:

**Selected paper will be notified**

Full Paper Submission Deadline:

**Before 1<sup>st</sup> August 2020**

Conference Day:

**18<sup>th</sup> August 2020**

## Fees and Registration

Free for e-proceedings registration at

<http://green2020.upm.edu.my> or email to [green2020@upm.edu.my](mailto:green2020@upm.edu.my)

1<sup>st</sup> July 2020

## Introduction

Renewable energy is important due to its significant benefits. One of the advantageous is the environmental impact as it significantly reduces carbon footprint. Renewable energy is an infinite natural energy resource; thus, it meets the needs of the present energy utilization without compromising the ability of future generations to meet their own needs. The rapid development and deployment of renewable energy also contributes greatly job creation and the economy. Finally, it provides energy security, as the growth and future development in a country is based on its power consumption.

Realizing the importance of renewable energy, Universiti Putra Malaysia Bintulu Campus has taken the initiative to organize the first ever International Conference on Green and Renewable Energy (GREEN2020). is designed as a platform for reporting, discussing, improving and disseminating recent developments in renewable energy science, technology, engineering, business and policy. Participants from various organizations such as universities, institutes, NGOs, associations, industries etc. are invited. It is an international event with the ambition to share leading research expertise and facilitate development and thus to be one of the renewable energy knowledge transfer channels. The conference is a must for research groups working on renewable energy science, technology, engineering, policy and development. The conference will facilitate synergies between academia and industries.

## Objectives

The aim of GREEN2020 is to be a forum for generating knowledge through the exchange of ideas and sharing of the latest developments in the field of renewable energy technology.

## Publication

Abstract (maximum 300 words)

Submit your abstract to our e-mail address ([green2020@upm.edu.my](mailto:green2020@upm.edu.my)).

Download abstract format at our website

<http://green2020.upm.edu.my>

## Webinar

Invitation link will be email to presenter and participant.

If you have any questions or inquiries, please contact us at
